

Work Finisher Tool

Ceramic Deburring & Deflashing Knife Series

Work Finisher Tools feature a ceramic blade ideal for deburring & deflashing hard plastics while eliminating the fear of cutting your hands or fingers. Excellent on ultra-hard resins like glass-fiber, carbon-fiber & talc filled plastics as well as deburring & chamfering non-ferrous metals such as copper, aluminum & brass products.

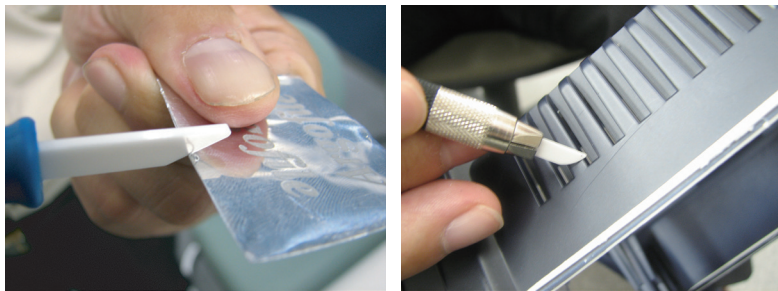

PRODUCT FEATURES

- Will not damage molded parts
- No sharp edge, safe deburring tool
- Holds it's edge without resharpening
- Rustless
- Wear resistant
- Non magnetic
- Chemical resistant
- Available in 3 sizes

To Use: Incline the ceramic blade on the workpiece at an angle of 30-70 degrees depending on the amount of flash/burr to be removed and pull toward yourself.

Caution: Use all Work Finisher Tools with safety glasses and gloves. Avoid heavy impact to the ceramic blade.
