

AS-9 PLUS FINISHING STONE

Introducing the **NEW AS-9 PLUS**, an enhanced version of our popular AS-9 stone. The AS-9 PLUS is engineered to produce the same fast, smooth cutting action our customers have come to expect from the AS-9, but with superior finishing capabilities.

Manufactured using premium aluminum oxide grain, the AS-9 PLUS produces wider scratches on the mold surface which results in an overall smoother and more brilliant finish. Currently available in grits 320-800 and in a variety of our most popular sizes.

“ Same fast, smooth cutting action I expect from the AS-9 but the plus gets you there faster! ”

Here's what our customers are saying...

“ A perfectly balanced stone; optimal breakdown paired with superb finishing capabilities. ”

Medium-hard stone with moderate breakdown. Can be used wet or dry and either by hand or in a reciprocating profiler.
